

Fresh Clinics have engaged in a new partnership with Complete Face to bring outstanding, top-of-the-mark training to Fresh Clinics Bootcamp Training.

The best in class, Dr Steven Liew, Dr Peter Callan and Emma Williams are behind the premier web-app for cosmetic injectables. Here's why it's going to increase your learning and practice knowledge.

What is Complete Face?

- Complete Face is an educational platform focused on patient outcomes and safety.
- The World's First Digital Encyclopedia on Facial Injectables.

What value does Complete Face give you?

- Complete Face contains videos and fresh cadaver anatomy, delivering the highest quality medical education on facial injectables.
- Each indication follows a structured format – anatomy, clinical assessment, treatment objectives and marking, injection technique, product choice and before and after photos.
- Structured content contains all facial indications commonly injected for facial rejuvenation.
- Structured format learning - All indications follow a structured format:
 - anatomy,
 - clinical assessment,
 - treatment objectives and marking,
 - injection technique,
 - product choice
 - before and after photos.
- Anatomically precise, clinically relevant, and highly practical

Improved Training for you!

- Extra online training than before.
- Information at your fingertips via the Complete Face web-app - anytime, anyplace and at your own pace.

- Essential resource to achieve optimal patient outcomes and patient safety.
- Techniques for improvement of every facial area, demonstrated with tips, tricks and warnings for safe practice.

How do you get access?

- If you're a nurse that is looking to engage in Fresh Clinics Bootcamp, you will receive access to **Complete Face 'Essentials' modules**.
- Please see below the Modules included.

Please note, from 1st February, 2023, Fresh Clinics Bootcamp Training will increase to \$5,700 + GST to reflect the new value.

Complete Face Essentials Modules

Included with Fresh Clinics Bootcamp Training

The Essentials Module contains 3 sub modules

Upper Face, Mid Face and Lower Face. These are further broken down into 22 facial aesthetic indications suitable for treatment with neuromodulators and/or dermal fillers. Each indication has information on anatomy, assessment, clinical markings & objectives, injection technique, before and after images and product selection in a logical learning sequence. This is an essential educational module for every health professional who performs facial cosmetic injecting.
